

# O-Ring RFQ Template

Printable quote request worksheet for engineering and purchasing teams.

## How To Use This Template

Send us your specifications and we will respond within 24 hours with pricing, lead time and technical recommendations.

## Your Contact Details

### Your Contact Details Fields

Field	Details	Value
Full Name	Type: text   Required   Example: John Smith	_____
Company Name	Type: text   Required   Example: Acme Engineering	_____
Email Address	Type: email   Required   Example: john@company.com	_____
Phone / WhatsApp	Type: tel   Example: +1 555 000 0000	_____

## O-Ring Specifications

### O-Ring Specifications Fields

	Details	Value
	Type: select   Options: NBR (Nitrile); FKM (Viton); HNBR; EPDM; Silicone (VMQ); PTFE; FFKM; Not sure - need recommendation	_____
Part Reference	Type: text   Example: e.g. AS568-214 or ID 25mm x CS 3.5mm	_____
Quantity Required	Type: text   Example: e.g. 100 pieces	_____
Shore (A)	Type: select   Options: 70 Shore A (standard); 80 Shore A; 90 Shore A; Other / Not sure	_____

## Application Details (Optional but Helpful)

### Application Details (Optional but Helpful) Fields

	Details	Value
Fluid / Media	Type: text   Example: e.g. ISO VG 46 hydraulic oil, seawater, steam	_____
Operating Temperature	Type: text   Example: e.g. -20 deg C to +150 deg C	_____
Operating Pressure	Type: text   Example: e.g. 200 bar	_____
Application Type	Type: select   Options: Static seal; Dynamic - reciprocating; Dynamic - rotary; Face seal / flange; Not sure	_____
Required Lead Time	Type: select   Options: Standard (7-15 days); Express (3-5 days); Flexible - best price priority	_____
Additional Notes	Type: textarea   Example: Any other requirements, certifications needed, or questions for our engineering team...	_____
